Forecast for Monday 19 Oct 2020

Weather: Rain overnight initially heavy, largely clearing before dawn. A rather cloudy day however only a few light isolated outbreaks of patchy rain during the morning, while some limited brighter spells appear. Cloud thickening from mid-day, with rain more persistent for the afternoon, bringing some heavier outbreaks across western ranges. Turning mainly dry through the evening as bases lift again.

Chance of cloud free mountain/hill tops above 600m: 70% during the morning with the extensive cloud mostly above the summits. Becoming 40% during the afternoon as cloud bases lower to 500-700m and thicken.

Visibility: Good falling moderate or poor in rain and very poor in hill fog.
